

Table of Contents	Page No.
Foreword	v
Preface	viii
Acknowledgments	xi
Part I – Physics	
<i>Jonas R. Becker Arenhart and Helcio Felipe Junior</i>	
1 The Fate of Bundle and Substratum Theories Under KS Theorem	1
<i>J. Acacio de Barros and Adonai Sant’Anna</i>	
2 Classical Fields, Bell’s Inequalities, and the Quantum Limit	23
<i>Christian de Ronde and César Massri</i>	
3 Against ‘Particles’ and ‘Collapses’ in Quantum Entanglement	38
<i>Luis Carlos Garcia de Andrade</i>	
4 Generation of Cosmological Magnetic Fields at Laboratory Scales in a Chiral QED Metric-Torsion Gravitational Weak Field Background	68
<i>Décio Krause</i>	
5 Quantum Mechanics, Ontology, and Non-Reflexive Logic	75
Part II – Logic and the Foundations of Mathematics	
<i>Felipe S. Abrahão, Klaus Wehmuth, and Artur Ziviani</i>	
6 On the existence of hidden machines in computational time hierarchies	113
<i>Jean-Yves Beziau</i>	
7 What is an Axiom?	122
<i>Itala M. Loffredo D’Ottaviano and Hércules de Araujo Feitosa</i>	
8 Galois Pairs with the Modal Operators of Paraconsistent Logic J_3	143

<i>Newton C. A. da Costa</i>	
9	Undecidability, Incompleteness and Beyond: an adventure 168
<i>Marcelo Finger</i>	
10	Logic in Times of Big Data 184
<i>Adonai S. Sant'Anna</i>	
11	Epistemology of Quasi-Sets 199
<i>Bruno Scarpellini</i>	
12	Recursively Enumerable Sets and Fourier Series 217
<i>Apostolos Syropoulos</i>	
13	Categories of Fuzzy Structures and Fuzzy Categories 230
Part III – Philosophy	
<i>Otávio Bueno</i>	
14	The Philosophical Significance of Incompleteness 250
<i>Gregory Chaitin</i>	
15	Consciousness and Information, classical, quantum or algorithmic? . 260
<i>J. Acacio de Barros and Carlos Montemayor</i>	
16	Information and the Hard Problem of Consciousness 270
<i>Marcelo Gleiser</i>	
17	What We Can't Know of the World: Science and the Limits of Knowledge 282
<i>Muniz Sodré</i>	
18	A Question of Identity 300
Part IV – Social Sciences	
<i>Sami Al-Suwaiem</i>	
19	Gödelian Rationality 310

Francisco Caruso and Roberto Moreira Xavier

20 In what sense space dimensionality can be used to cast light into
cultural anthropology? 344

*Julio Michael Stern, Marcos Antonio Simplicio, Marcos Vinicius M. Silva,
and Roberto A. Castellanos Pfeiffer*

21 Randomization and Fair Judgment in Law and Science 379
