

Selected papers for DEON, in alphabetical order:

1. Edgar Avendaño-Mejía and Yolanda Torres-Falcón. The roles of authority and norm-addressees in deontic puzzles
2. Pablo F. Castro, Valentin Cassano, Raul Fervari, and Carlos Areces. Deontic Action Logics via Algebra
3. Agata Ciabattoni and Björn Lellmann. Sequent Rules for Reasoning and Conflict Resolution in Conditional Norms
4. Tiziano Dalmonte, Charles Grellois, and Nicola Olivetti. Proof systems for the logics of bringing-it-about
5. Thijs De Coninck and Frederik Van De Putte. The Original Position: a Logical Analysis
6. Federico L. G. Faroldi, Meghdad Ghari, Eveline Lehmann, and Thomas Studer. Impossible and Conflicting Obligations in Justification Logic
7. Stef Frijters and Thijs De Coninck. The Manchester Twins: Conflicts Between Directed Obligations
8. Alessandro Giordani. Reason-based Deontic Logic
9. Daniela Glavaničová and Matteo Pascucci. Axiomatizing norms across time and the 'Paradox of the Court'
10. Valentin Goranko. How deontic logic ought to be: towards a many-sorted framework for normative reasoning
11. Guido Governatori, Silvano Colombo Tosatto, and Antonino Rotolo. A Defeasible Deontic Logic for Pragmatic Oddity
12. Guido Governatori and Antonino Rotolo. Is Free Choice Permission Admissible in Classical Deontic Logic?
13. Timo Lang. A Reduction in Violation Logic
14. Juliano Maranhão and Giovanni Sartor. Interpretive Normative Systems
15. Maya Olszewski, Xavier Parent, and Leendert van der Torre. Input/output logic with a consistency check – the case of permission
16. Alexander Steen. Goal-Directed Decision Procedures for Input/Output Logics
17. Kees van Berkel and Tim Lyon. The Varieties of Ought-implies-Can and Deontic STIT Logic
