

Table of Contents

I Conceptual Modeling

Development of Conceptual Models and the Knowledge Background Provided by the Rigor Cycle in Design Science	3
<i>Ajantha Dahanayake, Bernhard Thalheim</i>	
Integrating Social Media Information into the Digital Forensic Investigation Process	29
<i>Antje Raab-Düsterhöft</i>	
Normal Models and Their Modelling Matrix	44
<i>Bernhard Thalheim</i>	

II Databases

Extremal Combinatorics of SQL Keys	75
<i>Sven Hartmann, Markus Kirchberg, Henning Koehler, Uwe Leck, Sebastian Link</i>	
Polynomially Bounded Valuations in Higher-Order Logics over Relational Databases	92
<i>Flavio Ferrarotti, Loredana Tec, José María Turull-Torres</i>	
Tolerant Constraint-Preserving Snapshot Isolation: Extended Concurrency for Interactive Transactions	122
<i>Stephen J. Hegner</i>	
Viewpoint-Oriented Data Management in Collaborative Research Projects	146
<i>Yannic Ole Kropp, Bernhard Thalheim</i>	

III Rigorous Methods

Cyberphysical Systems: A Behind-the-Scenes Foundational View	177
<i>Richard Banach, Wen Su</i>	

The Role of Validation in Refinement-Based Formal Software Development	202
<i>Jean-Pierre Jacquot, Atif Mashkoor</i>	
Hagenberg Business Process Modelling Method – Towards a Homogeneous Framework for Integrating Process, Actor, Dialogue, and Data Models ...	220
<i>Verena Geist, Felix Kossak, Christine Natschläger, Christa Illibauer, Thomas Ziebermayr, Atif Mashkoor</i>	
Closing the gap between the specification and the implementation: the ASMETA way	242
<i>Paolo Arcaini, Angelo Gargantini, Elvinia Riccobene</i>	
Addressing Client Needs for Cloud Computing using Formal Foundations	264
<i>Andreea Buga, Sorana Tania Nemeş, Atif Mashkoor</i>	
From Concepts in Non-Monotonic Reasoning to High-Level Implementations Using Abstract State Machines and Functional Programming	286
<i>Christoph Beierle, Steven Kutsch, Gabriele Kern-Isberner</i>	
<hr/>	
IV Miscellaneous	
<hr/>	
Recent Developments in Armstrong Codes	311
<i>Attila Sali</i>	
Misunderstandings and Their Overwhelming Success	330
<i>Alexander Bienemann</i>	
QoS-Aware Web Service Composition Using Graph Databases	336
<i>Hui Ma, Zhaojiang Chang, Alexandre Sawczuk da Silva, Sven Hartmann</i>	
Author Index	352
